

Win an “End of School Party”
for teachers and staff at
your school!

The Santa Fe school with the highest score wins!

How points will be awarded:

- Your EBP school coordinator will collect one science journal (original or copy) from each classroom teacher by May 22.
- Each journal will be scored based on how many of the four seasonal activities have been completed – for a potential score of four points.
- We take the total number of points and divide them by the number of teachers in your school who received journal packets.
- The highest score wins!
